✓ 0.4s

A histogram showing the distribution of 'total_bill' values. The x-axis is labeled 'total_bill' and ranges from 0 to 50. The y-axis is labeled 'Count' and ranges from 0.0 to 20.0. The histogram bars are light blue. A smooth, light blue curve is overlaid on the histogram, representing a normal distribution fit. The distribution is unimodal and slightly right-skewed, with a peak count of 20.0 around a total bill of 15-17.
